### ASWM's Hot Topics Webinar Series

The Association of Wetland Managers (ASWM) occasionally opens up its Members Webinars to non-members on special topics that are not specific to any of our other webinar series and that appeal to a broader audience than our membership. For this reason, the Association started a Special Topics Webinar Series that is available for anyone to participate in. Some of the topics in the past have included the Ramsar Convention and international projects, complex legal cases, environmental economics and more. These webinars are advertised through our website, newsletters, social media and emails. There is no specific day of the month when these webinars occur. For more information and/or to join our email list for notices about upcoming events, please contact Laura Burchill at [laura@aswm.org](mailto:laura@aswm.org).

If you haven't used Go To Webinar before or you just need a refresher, please view our guide prior to the webinar here.
