Oneida Nation

Tony Kuchma, Environmental
Project Manager

Video 1: The Oneida Nation and Watershed Conservation – A success story

- Wisconsin Wetland Association is producing a series of videos on the importance of wetlands
- <https://vimeo.com/showcase/8366762>
- Wisconsin Tribal Conservation Advisory Council partners with WWA to produce videos that feature First Nation perspectives. <https://www.wtcac.org/>
- WTCAC secured funding (\$14,000) From the Forest County Potawatomi Foundation
- The Wisconsin Natural Resource Conservation Service provided \$11,000 towards the video production.
- Video 2 - The Oneida Nation and Watershed Conservation: Planting a Seed

Video 2: Coyote Run Restoration

- Drained, cleared and farmed since the 1930's
- Reacquired the land and started restoring back to wetland in 2006
- Over 120 acres of wetland restored at the headwaters of the South Branch of the Suamico River
- Funded in part by the Fox River Natural Resource Damage Assessment Settlement.
- Paper companies polluted the river with PCB's and contributed funding for the cleanup efforts and restoring habitats to offset the damages.
