

Streamlining Wetland Boundary Review: A GIS-Based Approach

Kara Villone

New Hampshire Department of Environmental Services

171 Old Mountain Road

Northwood NH 03261

8602994812

Email: kara.villone@gmail.com

This session will demonstrate how desktop analysis can improve accuracy, save time, and support informed decision-making in wetland permitting. New Hampshire Department of Environmental Services (NHDES) staff will introduce GIS desktop tools used to efficiently review wetland boundaries prior to field verification. Attendees will learn how these tools support the delineation process by identifying potential discrepancies, streamlining site assessments, and enhancing regulatory reviews.
